# Speaking Points

- Government of Canada recognizes the importance of IP
- ExploreIP is an ongoing initiative under the National IP Strategy:
  - Tool helping Canadian businesses better access and leverage IP.
  - Also meant to increase the visibility and awareness of public sector IP available for use and commercialization to Canadian businesses, in particular SMEs.
  - Under Innovation Canada's platform of programs and services to Canadian businesses.
- Database features:
  - 48 public sector organizations, including federal departments, agencies, crown corporations, universities and hospitals
  - Pool of 59 COVID-19 Inventions with potential application to the pandemic
