

ANNEX

STATEMENT OF REQUIREMENT

1.0 REQUIREMENT

The Agency requires the supply, delivery and installation of seventy-six (76) Front Loading Washing Machines and seventy-six (76) Front Loading Gas Dryers for delivery to Calgary, Alberta.

2.0 OBJECTIVE

The Agency requires the replacement of their existing washers and dryers in their laundry room as the existing machines have surpassed their expected life.

3.0 MANDATORY TECHNICAL CRITERIA

Bidders must complete the attached Compliance Matrix in Annex A.

4.0 DELIVERABLES

The Agency requires the supply, delivery and installation of seventy-six (76) Front Loading Washing Machines and seventy-six (76) Front Loading Gas Dryers for the Agency located in Calgary, Alberta.

- 4.1 All items supplied shall be new and in pristine condition.
- 4.2 All items must be palletized for ease of cross loading and securely packaged for transportation.
- 4.3 The Contractor must provide products that are of the same description, brand name and model number as proposed in Annex Technical Criteria. Substitute products will not be accepted.
- 4.4 The Contractor must provide one operating manual, in English language, for each piece of equipment. An electronic copy is acceptable.

5.0 CONTRACTOR RESPONSIBILITIES

- 5.1 The Contractor must provide sufficient packaging to protect all goods during shipment.
- 5.2 All goods must be shipped in a manner that enables easy off-loading, by utilizing pallets or blocking. A forklift will be used for loading/offloading, therefore sufficient clearance should be provided underneath the items.
- 5.3 The Contractor must contact the Technical Authority at least 48 hours prior to delivery, to arrange a date and time for delivery and cross-loading.
- 5.4 The Contractor is responsible for the replacement or replacement cost of any item that is damaged or lost during transit to the delivery destination. The Contractor is responsible for any damages to the goods, including during off-loading, prior to acceptance of the goods by the Agency.

6.0 AGENCY RESPONSIBILITIES

The Agency will:

- 6.1 Provide a Point of Contact (POC) prior to, and upon delivery;
- 6.2 Provide material handling equipment and personnel for the cross-loading of supplied materials, if or when required; and
- 6.3 Contact the Contractor with any operational issues.

7.0 DELIVERY

All items to be Delivered Duty Paid (DDP) Incoterms 2020 to:

The Agency
1234 Main Street
Calgary, Alberta

ANNEX A

TECHNICAL CRITERIA

Offerors are to provide substantiating information in their technical bid package that shows that they meet each mandatory specification.

Substantiating information may include, but is not limited to, specification sheets, technical brochures, photographs or illustrations.

Instructions to Offerors

1. A complete list of the mandatory evaluation criteria are detailed in the Compliance Matrix below.
2. Bids which fail to meet all of the mandatory evaluation criteria will be declared non-responsive.
3. Offers must provide supporting technical documentation to prove they meet each mandatory evaluation criteria. If no supporting technical documentation is available, a detailed, written narrative can be submitted stating how the offeror meets the mandatory specification.
4. The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation or stating, without any substantiating information, that a offeror is compliant will not be sufficient.
5. All substantiating information should be provided with the bid at solicitation closing date. It is the Offerors responsibility to ensure that the submitted supporting technical documentation provides detail to demonstrate that the proposed product(s) meet the requirements of the evaluation criteria.
6. If the supporting documentation referenced above has not been provided at bid closing, the Contracting Authority may notify the Offeror that they must provide supporting documentation within two (2) business days following notification. Failure to comply with the request of the Contracting Authority within that time period, will deem the bid non-responsive and the bid will be given no further consideration.
7. In order to facilitate the evaluation of the bid, Canada requests that offerors address and present the topics in the order of the evaluation criteria listed below, and use the matrix document below to identify their supporting documentation.
8. Offerors must address any concerns with the performance specifications in written detail to the Contracting Authority before bid closing as outlined in the Request for Proposal (RFP) document.

COMPLIANCE MATRIX – MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS:

| Requirement: | Manufacturer offered: | Model number offered: |
|--------------------|---------------------------------|---------------------------------|
| Washers and Dryers | Washers: _____ Dryers: _____ | Washers: _____ Dryers: _____ |
