What's Changing in the Workplace?

Activity-based working is a work style that replaces traditional cubicle assigned offices. The goal is to help employees be more productive by providing them the right spaces for the tasks they need to accomplish. ESDC has implemented numerous methods and spaces to cater to the needs and desires of their employees.

Various Workpoints

- Individual and collaborative workpoints.
- Open, semi-enclosed, or enclosed workpoints.
- Various sizes and configurations.
- Different workpoints can be used throughout the day.

Adaptable Workstations

- All workstations have adjustable furnishings and equipment.
- Ergonomic chairs, standing desks and two computer screens.
- On a case-by-case basis, individual accommodation can be offered through the duty to accommodate process.

Open and Bright Spaces

- Bright, open spaces with plenty of natural light and greenery.
- Collaboration spaces with a relaxed atmosphere makes it easier to casually connect with colleagues.

Enhanced Technology

- Universal docking stations with a single cable.
- Secure GC Wi-Fi available.
- Video screens, projectors, interactive technology and wireless connectivity in collaborative spaces.

Lockers

- Lockers are available to store personal items securely.
- Lockers may be reserved on a permanent basis depending on managerial or site lead approval.

New Booking System

- All ESDC Workplaces are included in the ESDC Workspace Management System (WMS).
- WMS will evolve to meet the needs of other workspaces (collaboration rooms, meeting rooms, etc.).
- Visit ESDC Workspace Management System on iService. Your device must be connected to the ESDC network for access.

Various Working Zones

- Quiet Zone: includes open, semi-enclosed, and enclosed individual workpoints. Encourages individual and focused work with minimal noise.
- Transitional Zone: for less intense concentration; open individual and group workpoints; semi-enclosed collaboration and support spaces. Allows collaboration with a small number of colleagues.
- Interactive Zone: encourages socialization and group collaboration; a variety of group workpoints located away from the Quiet Zone.
