

Ol Overview Who is BIFMA & What is LEVEL?

LEVEL[®] by BIFMA

- e3 Furniture Sustainability Standard
- 3rd Party Certification
- LEVEL[®] Registry of Certified Products

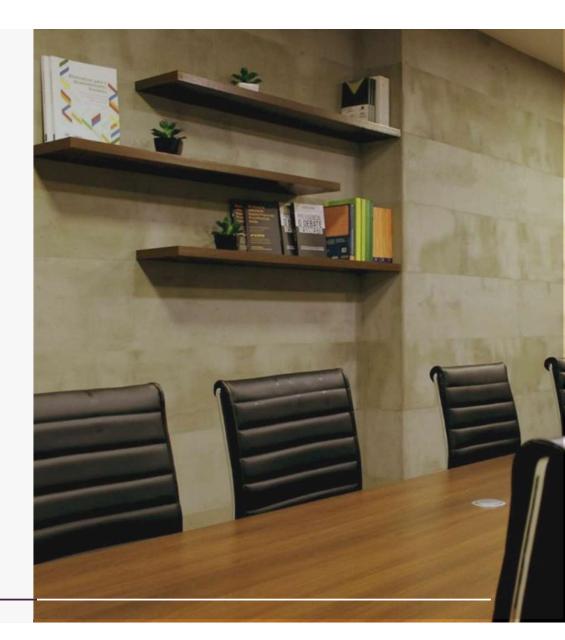

Why Did We Do It?

- Be proactive & set the bar high
- Tailored to the industry
- Invited regulators to the table to solve problems
- Set an industry measuring stick to stop greenwashing.
- Meet market demand.

Continuous Improvement

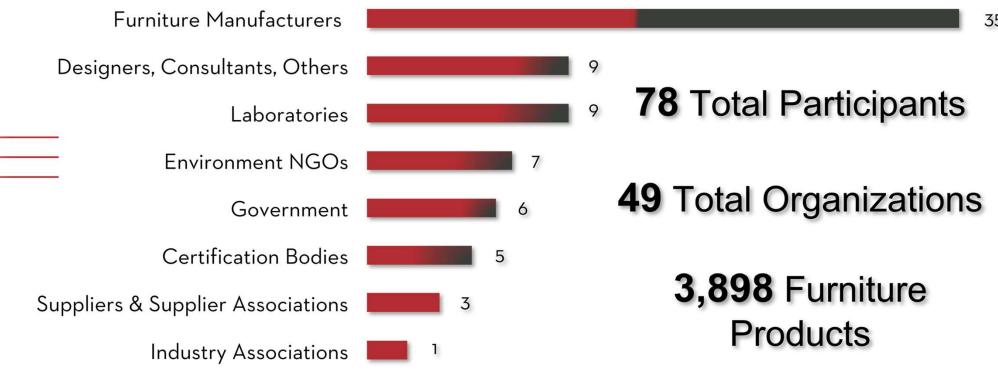

• LEVEL® is in 4th iteration—*already!*

ANSI/BIFMA e3 Furniture Sustainability Standard

- Created 2010
- Current Revision 2019
- Multi-Attribute (basis for LEVEL® certification)
 - Environmental, Health & Wellness, and Social Benefits

ANSI Process

LEVEL[®] Certification 02

What LEVEL[®] Measures & How it's Evolved

First-party Claim

Baker

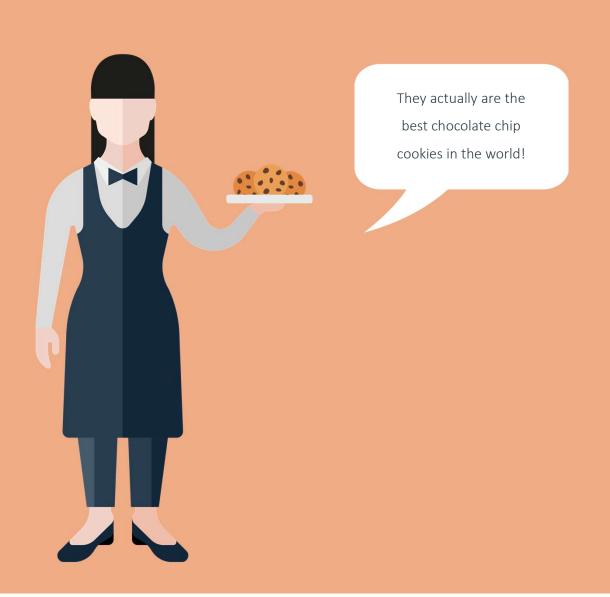

Second-party Claim

Flour vendor

Third-party Claim

Food Network Star

LEVEL vs. e3

LEVEL certifies conformance to the ANSI/BIFMA e3 Furniture Sustainability Standard

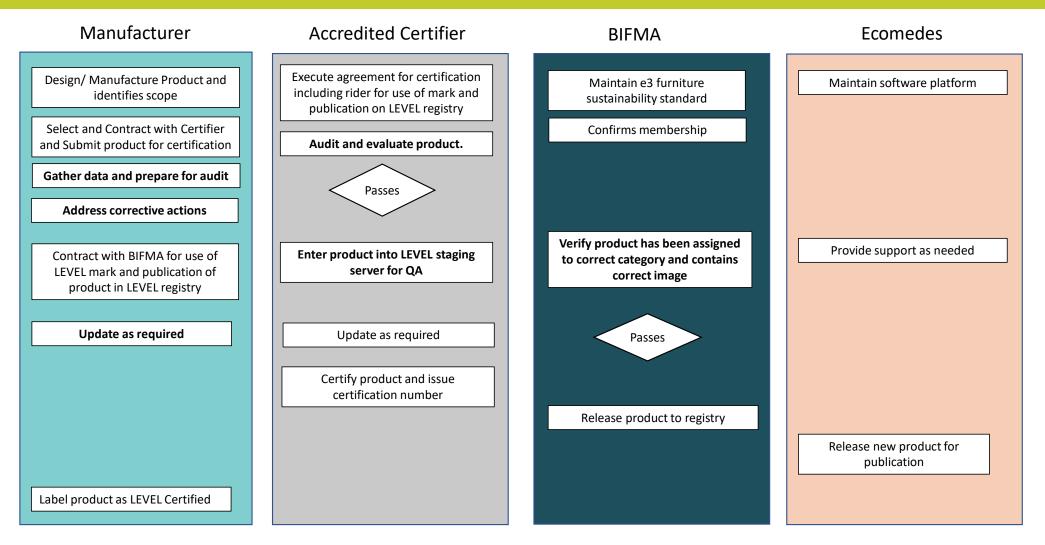

e3 is like the textbook—LEVEL is like the score of your final exam

01 – Objective A

Certification Process

3rd Party Certification

Provides

Consumer trust

Institutional Credibility

Quantifiable Impact

Eliminates

Uncertainty

Misinformation

Baseless Claims

How LEVEL® Works

Categories

1. Product

LEED

2. Manufacturing Facility

Living Building

Challenge

3. Organization

WELL

Impact Areas

- 1. Environmental Impact
- 2. Health & Wellness Impact

Build for Design

EPA

3. Social Impacts

GSA

The Process

1 Complete Prerequisites

2 Evaluate Credits

Complete Prerequisites

Environmental Impact

Energy & Environmental Policy

> Design for Environment

Health & Wellness Impact

Key Chemical & Risk Policies

Demonstration of Compliance

> Low Emitting Furniture

Social Impact

Employee Health & Safety

Labor & Human Rights

> Community Outreach

Environmental Impact

Climate Change

- Energy Management
- Embodied Energy
- LCA & EPD

Supply Chain

- Biobased
- Certified forests
- Recycled content

Circular Economy

- Repair/retrofit
- Extended product responsibility

New! with LEVEL® 2019

Industry-wide impact baseline Credit for EPDs* Optimized sourcing Responsible packaging ISO LCA Alignment

New! with LEVEL[®] 2019

Low emitting - prerequisite Targeted chemical elimination Chemical assessments Chemical disclosure Ergonomic Credit GreenScreen® Alignment Practice Greenhealth Alignment

Health & Wellness Impact

Chemical Assessment & Transparency

- Annex B
- Greenscreen
- Health Product Declarations
- Declare

Targeted Chemical Elimination

- PVC, flame retardants, heavy metals
- Aligned with Practice Green Health

Social Impact

Employee Programs

- Wellness Program
- Volunteer Program

Social & Environment Impact Assessment

Supplier Assessment

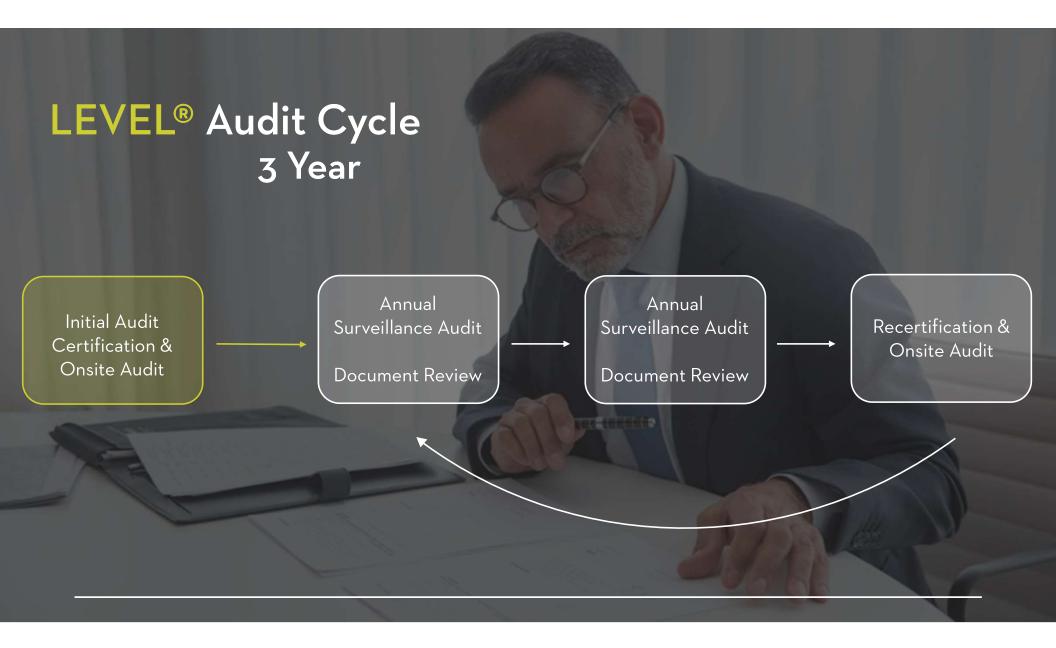

- Self-assessment tool
- Assessing high-risk suppliers

New! with LEVEL® 2019

Community engagement Wellness programs Disaster Preparedness Assess supplier risk Pursuit of Benefit Corporation

LEVEL Presentation Example

Project Zip / Postal Code 90210

Allsteel Inc. #19®

Category Seating Subcategory Conference/Executive

The #19 work chair is the sum expression of 18 integral parts – each one custom designed – plus one equally integral human being. It began with you: how you sit, move, work, adjust, and recline. So it moves naturally with you, keeps you supported in every position, and makes you comfortable throughout the day, which means you can stay focused on ideas and concentrate on work: #19 is made from 100% recycled aluminum, 88% of the materials used in its manufacture are recyclable, and Allsteel will voluntarily reclaim any #19 chair that's no longer useful.
