DATA TALENT PROJECT

Data Resources Hub

The Hub provides data-related toolkits and learning resources for public servants across the Government of Canada. These resources are intended to empower employees by providing guidance on the use of data-related tools in addition to upskilling opportunities for data skills.

Mission 4.3c: Data Toolkits Catalogue

[Click here](#)

Toolkits and resources to support the acquisition, management, and use of data-related hardware, storage, software, and programs.

Data Learning Library

[Click here](#)

Intermediate to advanced learning resources for data-related upskilling.
