## DDN201: How to be digital in the Canadian public service

A 6-week micro-course journey on how-to be "digital" in the public service

**Let's face it: every worker is now a digital worker, every public servant is a digital public servant.**

Built in partnership with a pan-Canadian team, the Digital Academy is leading the next iteration of the "How-to be digital in the Canadian public service" bootcamp, an introduction to digital open to all levels of Canada's public service, academia, and civil society.

**This course is about applying the culture, practices and technologies of digital in your day-to-day work in the public sector, covering topics like:**

- ✓ What digital is - and isn't - and how it applies to government
- ✓ Best practices for working digitally
- ✓ The top trends driving digital transformation worldwide

## CSPS Digital Accelerator

**MISSION** The CSPS Digital Accelerator provides a transformative learning experience that helps teams transition to new digital ways of working.

**OUTCOMES**

1. more digitally capable Teams
2. more digitally fluent public servants
3. more successful, modern, human-centered prototypes

**Collaborative, Open, Human-Centered and Iterative ways of Defining Problems and Prototyping solutions:**

The CSPS Accelerator is focused on product teams that departments send specifically to apply new skills to design and develop a new (or improved) product or service.

"Great program to give focus to projects that otherwise would be put on the backburner and take long time to realize. And also do those projects right!"
