DIVERSITY, INCLUSION AND OFFICIAL LANGUAGES: CHANGING THE NARRATIVE

Official languages are sometimes considered a barrier to employment and career advancement for members of certain equity-seeking groups. The modernization of the Official Languages Act is an opportunity for the Government of Canada to challenge and change the discourse on diversity, inclusion and official languages.

This event will bring together speakers from the public service and private sector to discuss measures to address the challenges faced by equity-seeking groups and to support their career progression. With different objectives in mind, these individuals will share their experiences and talk about how they are helping to change the narrative on diversity, inclusion and official languages.
