What's Changing in the Workplace?

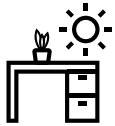

Various Workpoints

- Supports a variety of activities and varying degrees of social connection or individual concentration depending on the work zone.
- Individual and collaborative workpoints.
- Open, semi-enclosed, or enclosed workpoints.
- Various sizes and configurations.
- Different workpoints can be used throughout the day.

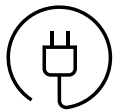

Adaptable Workstations

- All workstations have adjustable furnishings and equipment.
- Special accommodations offered to employees on a case-by-case basis.
- Ergonomic chairs, standing desks and two computer screens in workspaces are available to help improve posture and instill healthy work habits.

Open and Bright Spaces

- Bright, open spaces with plenty of natural light and greenery.
- Collaboration spaces with a relaxed atmosphere makes it easier to talk to colleagues.

Enhanced Technology

- Universal docking stations at various workstations can connect departmental laptops to a screen, network and other functions.
- Wi-Fi available throughout the workplace allows connectivity while moving between different workpoints.
- Large video screens, projectors, interactive technology and wireless connectivity in collaborative spaces.

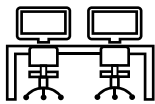

Lockers

- Lockers are available to store personal items safely.

New Booking System

- All ESDC Workplaces are included in the ESDC Workspace Management System.
- For now, the ESDC Workspace Management System will only allow workstations to be booked, but will evolve to meet the needs of other workspaces (collaboration rooms, meeting rooms, etc.).
- Boardroom and meeting room booking functions as well as booking from a mobile device are in development.
- Visit [ESDC Workspace Management System \(iservice.prv\)](#) for updates. Your device must be connected to the ESDC network for the link to work.

Various Working Zones

- **Quiet Zone:** includes open, semi-enclosed, and enclosed individual workpoints, and encourages individual and focused work.
- **Transitional Zone:** for less intense concentration; open individual and group workpoints; semi-enclosed collaboration and support spaces. Allows collaboration with a small number of colleagues.
- **Interactive Zone:** encourages socialization and group collaboration; a variety of group workpoints located away from the Quiet Zone.

More Collaborative Spaces

- Promotes spontaneous interaction, sharing ideas, and collaborative activities.
- Shared monitors, smart screens, writeable surfaces, and reconfigurable furnishings.
- Offers a variety of open, closed, formal and informal meeting spaces.
