Who We Are

Rogers Cybersecure Catalyst is Toronto Metropolitan University's national centre for training, innovation and collaboration in cybersecurity.

Headquartered in Brampton, Ontario, and offering programs and services across Canada, the Catalyst empowers individuals and organizations to seize the opportunities and tackle the challenges of cybersecurity.

Together with our partners and collaborators, we work to realize a vision of healthy democracies and thriving societies, powered by safe and secure digital technologies.

Catalyst Workforce Training

The Catalyst delivers the leading cybersecurity workforce training program in Canada.

Our workforce training program is specifically geared to addressing labour market shortages and fostering diversity and inclusion in the Canadian cybersecurity sector.

Participants receive seven intensive months of cybersecurity skills training, earning three internationally recognized GIAC certifications.

The Keys to Providing Practical Cyber Workforce Solutions

-  Focus on short, impactful programs that move learners into the workforce quickly.
-  Collaboration with private sector employers is critical to ensure that the proper skill sets are being created.
-  Diversity is key to solving the labour market shortage in vehicle cybersecurity.
