

What we offer

We have a dedicated team offering a multitude of services including:

- experimental learning opportunities with practical applications from the projects we host
- virtual/in-person events for the benefit of the public service
- contracting and project capacity across the federal communities to complete developmental and discovery projects
- cost sharing and distribution of risks amongst a portfolio of projects to benefit from various avenues of innovative work

Mission Statement

"We believe that the public sector can be a pathfinder in pushing the boundaries to better serve Canadians. We work with you to build capacity, we learn with you about new ways of doing things and we show you the realm of the possible."
