

# Federal Jurisdiction Injuries, 2021

September 2023

# Content

- Employer's Annual Hazardous Occurrence Report (EAHOR)
- Disabling and Fatal Injuries
- Changes during the pandemic

# EMPLOYER'S ANNUAL HAZARDOUS OCCURRENCE REPORT

# What is an EAHOR?

- Contains information on the number of minor, disabling, and fatal injuries by workplace.
- Employers must submit the EAHOR by March 1<sup>st</sup>.

# What are EAHOR data used for?

- Injury rates for Labour Program data analysis
- Proactive inspections
- Online resources: Occupational Injuries in the Canadian Federal Jurisdiction Report and Government of Canada Open Data Portal

# DISABLING AND FATAL INJURIES

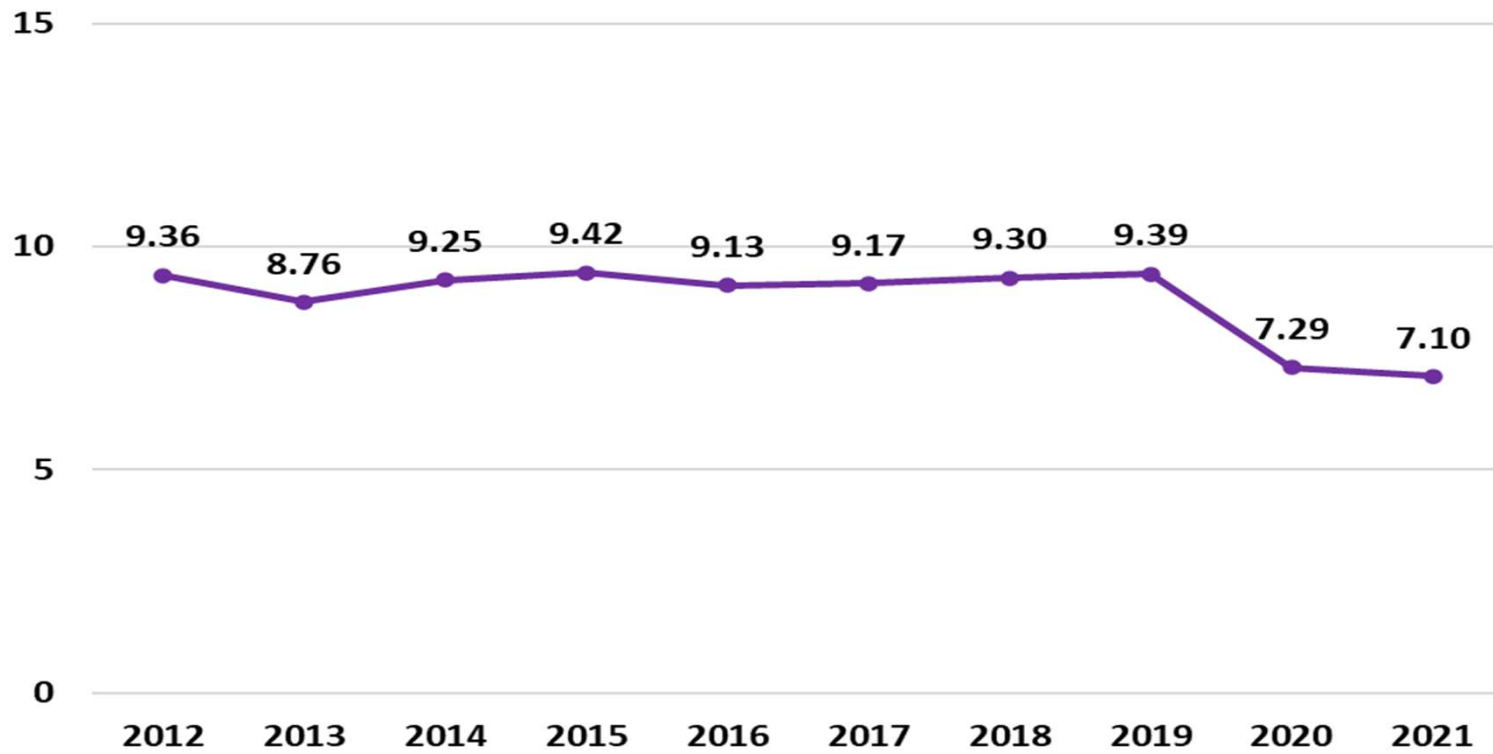

# What is the DIFR?

Disabling Injury Frequency Rate (DIFR):  
Number of reported disabling and fatal injuries  
per one million reported hours worked.

A rate per hours worked allows comparisons  
across business sizes and employers.

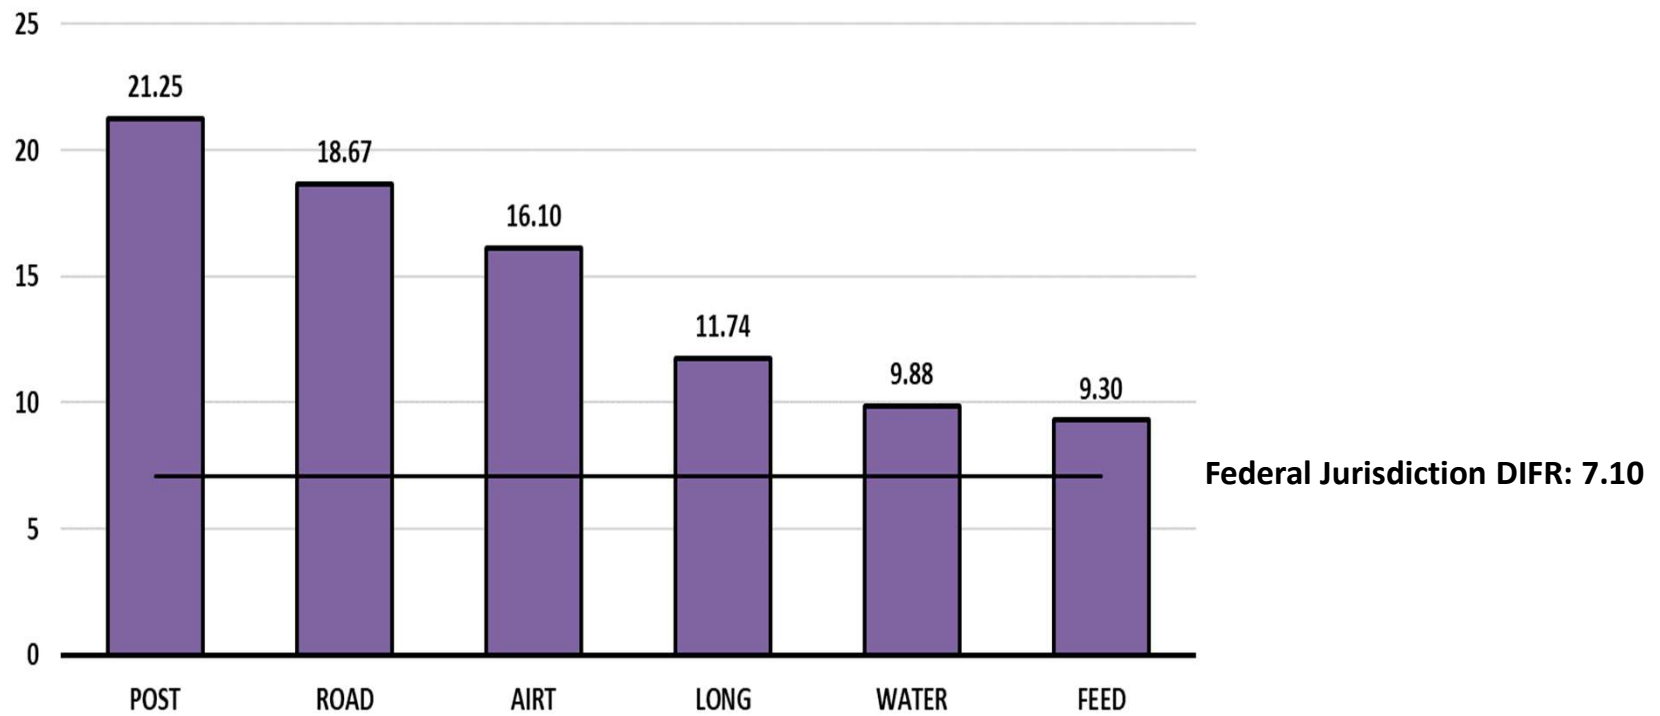

# 2012-2021 DIFR

# 2021 DIFR Highlights

# 2021 DIFR Highlights

- The 2021 DIFR for the federal jurisdiction (7.10) is the lowest since 1982.
- Postal Services, Road Transportation and Air Transportation continued to have the highest DIFR values in 2021.

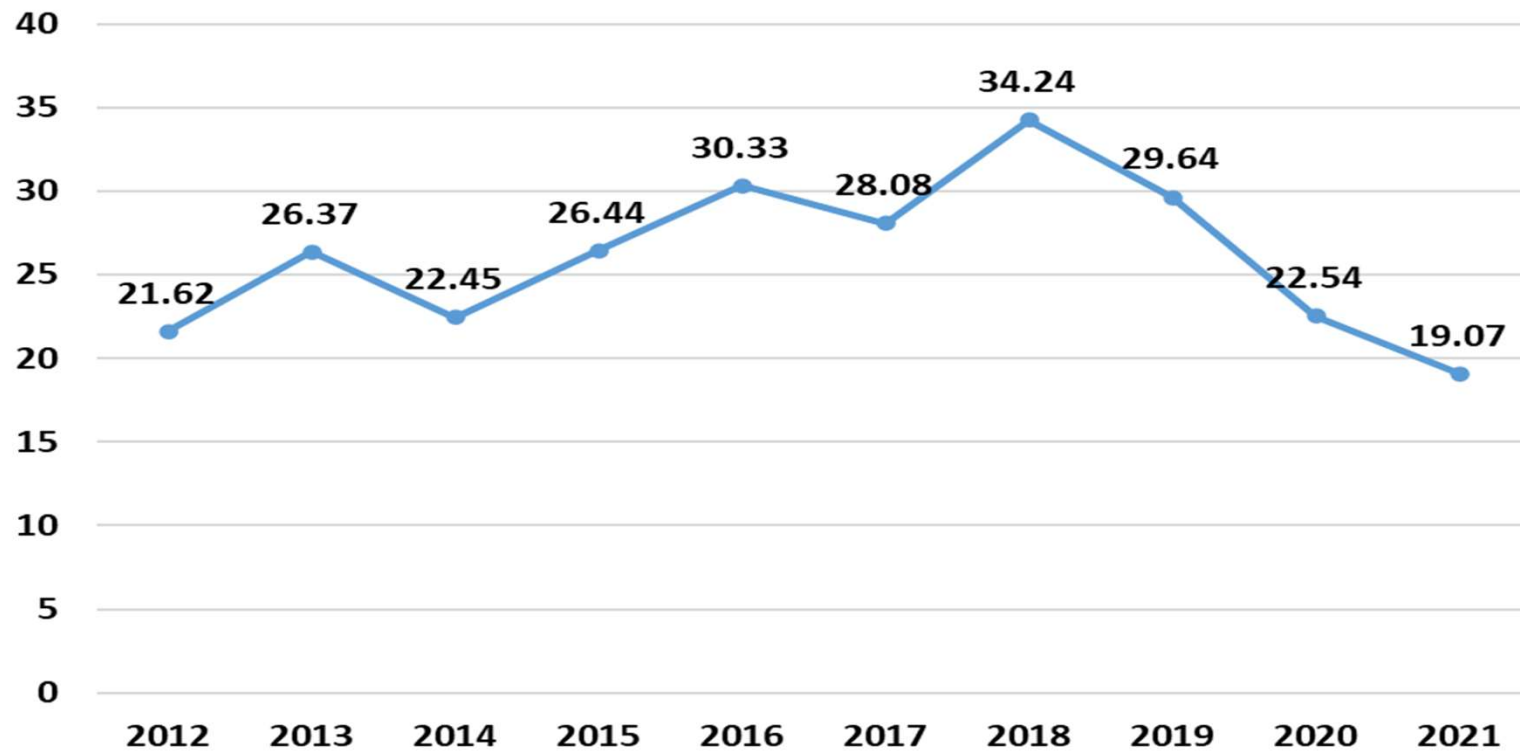

# What is the FIFR?

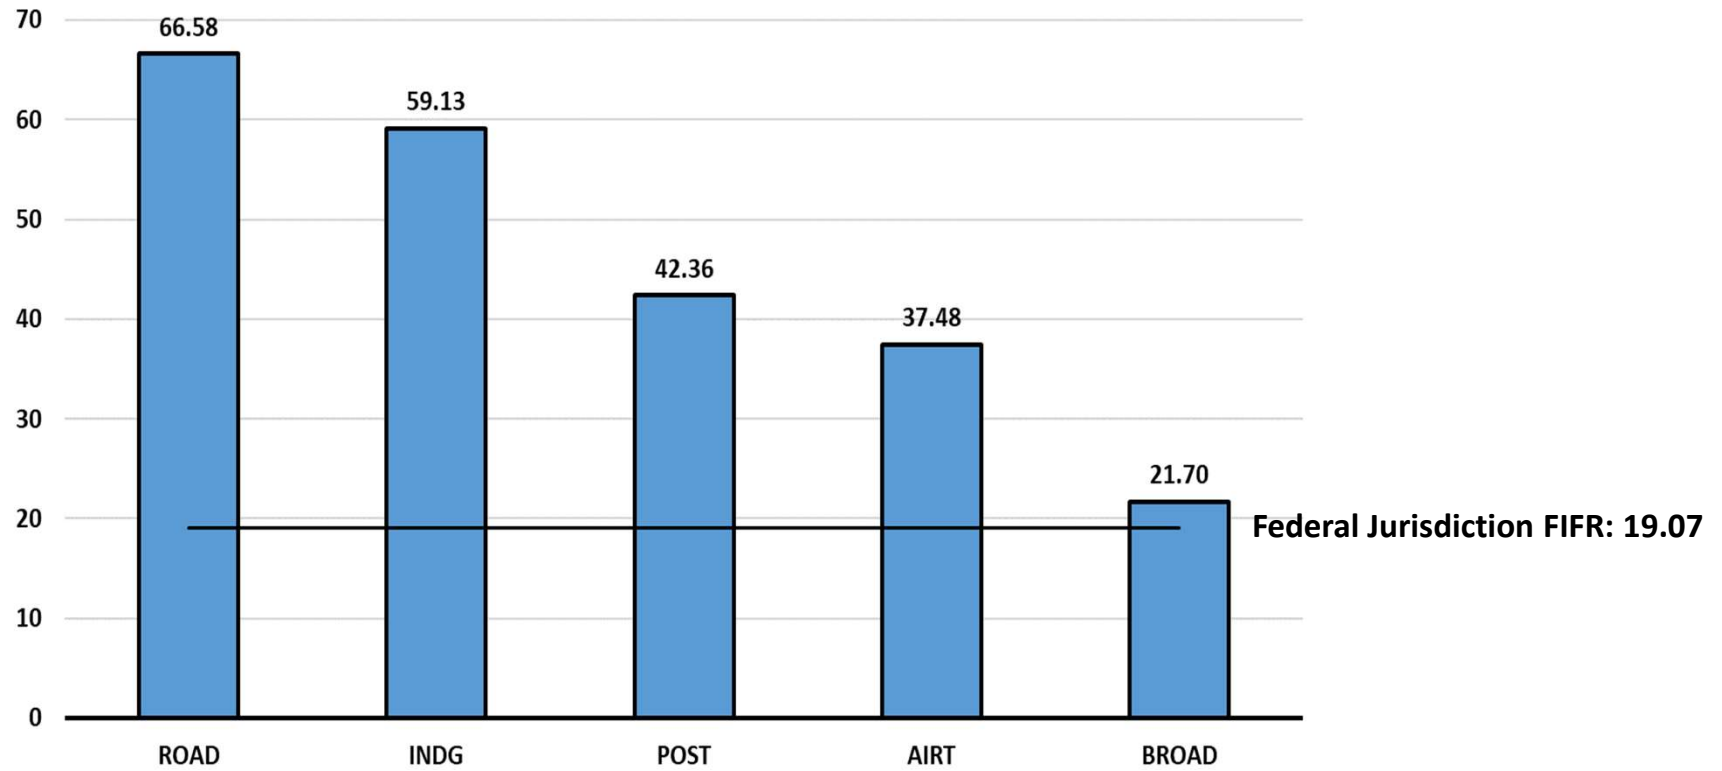

Fatal Injury Frequency Rate (FIFR):  
Number of reported fatal injuries per one billion reported hours worked.

# 2012-2021 FIFR

# 2021 FIFR Highlights

# 2021 FIFR Highlights

- The 2021 FIFR for the federal jurisdiction (19.07) is the lowest since 1998.
- The Road Transportation, First Nations band councils and Indigenous self-governments, Postal Services, Air Transportation, and Broadcasting sectors all reported FIFR values above the 2021 national rate.
